FOREWORD

Military Manpower Statistics (MMS) is a quarterly publication generated from an integrated data base containing manpower information. The MMS report consists of 28 statistical tables providing a variety of information on various aspects of Department of Defense (DoD) military manpower. In addition to summary data, detailed data are provided by Military Department or defense component, type of personnel (officer, enlisted), grade, and location. Selected tables also provide data on women in the military.

*NOTES: Excluded from all total DoD strength figures for fiscal year 1993 are approximately 67,850 full-time military personnel who are paid from other than active duty military personnel appropriations. This group is funded from appropriations for reserve components.

Selected Reserve strengths ordered to active duty by the President under Title 10, United States Code 673(b), are also excluded, except where noted, from total DoD strength figures for fiscal year 1993.
